ENERGY CONSERVATION DRIVE IN COLLEGE CAMPUS REPORT-2023

Department of Water Management and Department of Environmental Sciences in collaboration with college NSS, NCC and Debate & Seminar Committee organised **Energy Conservation drive in college campus** on 2nd March 2023 to mark the eighteenth meeting of Group of Twenty (G20), a Summit, under the leadership of Worthy **Principal, Prof. Muzafar Ahmad Bhat**. The overarching aim was to provide general awareness platform for faculty & students and to sensitise all stakeholders of college about the energy scenario in college. The conservation drive was kick-started by the worthy **Principal, Professor Muzafar Ahmad Bhat** with his inaugural awareness talk about the conservation of energy and the concept of green campus by establishment of solar power system in our college hostel.

Dr. Sartaj Ahmad Ganie, Head Deptt. of Water Management highlighted the significance and importance of, energy conservation in mitigating the Climate Change. He also impressed upon the importance of solar plants in maintaining the ecological balance.

Prof. Raveed Yousuf, NSS officer of GDC Anantnag highlighted the importance of Energy Conservation awareness through different activities to get sensitised about environmental concerns like pollution, global climate change as well as plastic free environment. He also impressed upon the students regarding their role as stake holders of the only earth for energy conservation.

Prof. Farooq Ahmad Malik, Convenor Debate, seminar committee and **coordinator G-20 programs** with his inaugural talk highlighted various program and events pertaining to G-20 summit 2023

At last, esteemed Principal commended the commitment and the efforts put in by various departments during conservation programme.

The event was concluded by **Dr. Sartaj Ahmad Ganie**, Head Deptt of Water Management by providing vote of thanks to all the students, accompanying faculty for their active participation in G-20 program.
