THEME

Government Degree College Anantnag is hosting a two-day national conference on "Science Popularization, Innovation, and Extension" on 2nd-3rd November 2022. The aim of the National Conference is to develop scientific temperament, provide community members with the ability to make informed decisions, and encourage scientific thinking. The conference will give aspiring scientists, scholars, faculty members & students with a venue to explore the principles of science and innovation and their practical applications. This programme will bolster the NEP-2020 initiative to popularise science and technology in colleges, encourage aspiring scientists to assume leadership roles in science and technology for the benefit of society as a whole, and improve the culture of collegiate research through motivational science speeches and hands-on instruction.
