

Organic Manure Vermicompost Production and Sale

Department of Botany and Seed Technology successfully obtained another crop of organic manure -Vermicompost and effected its sale today on 28th November 2022. The nutrient rich eco friendly manure was properly sieved and packaged into 2 KG packets for sale. All the faculty members of the college purchased at least one packet of Vermicompost packet for use in their kitchen gardens as the manure is absolutely free from all chemicals and pesticides. Around 20 packets each weighing two Kgs was sold on the occasion. In view of demand from other stake holders like non-teaching staff, students, farmers, the department shall obtain another crop of Vermicompost in near future for sale.

Head,

Dept. of Botany/Seed Technology
