**Department of Botany and Seed Technology**  
**Govt. Degree College Anantnag**

As part of G20 Sustainable Development Goal initiatives, the Department of Botany, Seed Technology and Water Management of the college organized one day work shop on the theme, *Vermicompost for sustainable agriculture*. The event was held on 14<sup>th</sup> March 2023 in the department of Botany. The session was attended by around fifty college students (Boys/Girls), fifteen progressive farmers including Mr. Irshad Ahmad Dar (National awardee from Patalbagh Pampore) & Mr. Ajaz Ahmad (Successful Entrepreneur in Vermicomposting from kulgam), besides the faculty of Botany, Seed Technology, Water Management, Chemistry, Zoology , Biotechnology and lab. Staff of dept. of Botany.

The guest speaker of the day was Dr. Mumtaz Ganai, Soil scientist KVK Shopian. At the outset, Head dept. of Seed Technology Dr. Bilal Ahmad introduced the guest to the audience and presented brief schedule of the workshop. He informed the audience about need of conducting such academic and agro based skill events.

The formal welcome address was presented by Dr.Sulaiman wherein he extended warm welcome to all participants and guest speaker.

Head dept. of Botany Mr. A. M.Chalkoo shared the dace and apprised the participants of workshop about organic farming, harmful implications of chemical fertilizers and pesticides. He advocated for making organic fertilizer-Vermicompost at individual level at respective places of dwellings so that kitchen wastes, farm yard manure could be converted into organic manure-Vermicompost.

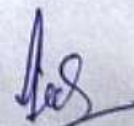

The detailed power point presentation was delivered by guest speaker Dr. Mumtaz. In his lucid and comprehensive presentation the speaker highlighted about economics of Vermicomposting, mineral constituents present in the manure and its advantages over chemical fertilizer. Dr.Mumtaz also spoke about soil composition and soil health. The expert narrated in detail the advantages of using organic fertilizer over chemical fertilizers.

Successful agripreneur, Mr.Irshad Ahmad and Mr.Ajaz Ahmad shared their experience with the audience and advocated for organic farming in every agricultural field and crops and need to adopt scientific interventions and techniques in crop and soil management.

At the end of session the audience posed various questions and same were addressed by the resource person.

The audience, subject expert and farmers visited the Vermicompost unit of the department and provided Hands-On Training and expert opinion to students and farmers. The session evoked tremendous response among students and progressive farmers.

The faculty member Mr. Mir Khusroo (Asstt. Prof. Botany) presented Vote of thanks wherein he extended sincere gratitude to one and all present in the session and especially to college Principal Prof. Muzaffar for extending full support and cooperation in successful conduct of such events.
