#### INSTRUCTIONS

THE SURVEY PERTAINS TO ONGOING AND PREVIOUS CLASSES/SEMESTERS. FOR EXAMPLE, THE STUDENTS OF 5TH SEMESTER CAN FILL IN THE RESPONSES KEEPING IN VIEW THE OVERALL PERFORMANCE OF TEACHERS UP TO FOUR SEMESTERS.

1. How much of the syllabus was covered in the class? \*

- 85% TO 100%
- 70% TO 84%
- 55% TO 69%
- 30% TO 54%
- BELOW 30%

2. How well did the teachers prepare for the classes? \*

- Thoroughly
- Satisfactorily
- Poorly
- Indifferently
- Won't teach at all

3. How well were the teachers able to communicate? \*

- Always effective
- Sometimes effective
- Just satisfactorily
- Generally ineffective
- Very poor communication

4. The teacher's approach to teaching can best be described as \*

- Excellent
- Very good
- Good
- Fair
- Poor

5. Fairness of the internal evaluation process by the teachers. \*

- Always fair
- Usually fair
- Sometimes unfair
- Usually unfair
- Unfair

6. Was your performance in assignments discussed with you? \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students. \*

- Regularly
- Often
- Sometimes
- Rarely
- Never

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth. \*

- Significantly
- Very well
- Moderately
- Marginally
- Not at all

9. The institution provides multiple opportunities to learn and grow. \*

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

11. Your mentor does a necessary follow-up with an assigned task to you. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- I don't have a mentor

12. The teachers illustrate the concepts through examples and applications. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

13. The teachers identify your strengths and encourage you with providing right level of challenges. \*

- Fully
- Reasonably
- Partially
- Slightly
- Unable to

14. Teachers are able to identify your weaknesses and help you to overcome them. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process. \*

- Significantly
- Very well
- Moderately
- Marginally
- Not at all

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences. \*

- To a great extent
- Moderate
- Some what
- Very little
- Not at all

17. Teachers encourage you to participate in extracurricular activities. \*

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work. \*

- To a great extent
- Moderate
- Some what
- Very little
- Not at all

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching. \*

- Above 90%
- 70 – 89%
- 50 – 69%
- 30 – 49%
- Below 29%

20. The overall quality of teaching-learning process in your institute is very good. \*

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

21. Give observations/ suggestions to improve the overall teaching – learning experience in your institution.

Yes

None

Excellent

Good

Discipline

Best

Everything is good

Satisfactory

History

All good

Sir has knowledge but doesn't have the ability to study

Satisfied

Student-teacher friendly and use of AI tools for better understanding about topic

Since the introduction of smart boards, almost all the teachers lost essence of teaching. They mostly download presentation from slidershare.net and other websites. And are not actively engaging in learning concepts themselves, also if a student shows courage to talk to a teacher the revenge by the teacher is taken in internal exams where marks are reduced or we are declared fail if we did anything that hurts teachers ego. We have become puppets, our right to express has been snatched we are not able to say anything just because our internal marks will get affected badly.

Our institution needs to improve the infrastructure of the college especially for the science students. We are facing lot of troubles due to poor infrastructure kindly upgrade it.

Not that which expected

In the 4th sem teachers were quite good but currently we are in 5th sem and the current teachers are pathetic except one(Amir sir...he prepares well and delivers to his best) but the other 2 teachers currently Sameena mam and gowhar sir..they have make students very distressed...they come in classes without any preparation and their delivery of content is absurd...We have lost intrests in studies because of their way of teaching....I hope u will take action In this and atleast give us better teachers in next sem..as we are in higher sems,we have to prepare for competative exams as well so we need best teachers of the department

Good 👍

Give the students full marks in practical exams that they boost their cgp level and after graduation they crack competitive exams...

And treat the students in humble way.

Teacher should have High emotional intelligence that they feel the feeling of students .

As a student I can suggest please deliver lecture in a crisp point wise not in a long ppts that makes lecture boring otherwise there are well top educated platforms available that deliver top quality content

All over the teachers giving there 100% in teaching however the infrastructure of the college is little bit week

Teachers have created all mess here at gdc anantnag at Humayun muzzamil college ... Mostly all the teachers are engaged with girls and dating them as well

The learning process of my institution is very good

Training of professors, contractualls by some abroad faculty.

Always better

Nothing

To improve the overall teaching and learning experience in our institution, we could focus on incorporating more interactive and practical learning sessions. Engaging students through workshops, hands-on projects, and guest lectures from industry experts can help connect theoretical knowledge with real-world applications. Additionally, encouraging open communication between students and faculty can foster a collaborative learning environment. Finally, providing resources for self-paced learning, such as access to digital libraries or online courses, would be valuable for students looking to enhance their knowledge independently. These initiatives could greatly enrich our educational experience.

A teacher must know the art of teaching like yaseen sir (botany)

Nothing to improve everything is best

Always best

Write everything on board in every lecture ..use of black bords instead of smart bords

No comments

Satisfied 👍

Everything is good

Please update the biochemistry department ,as it not good lab and class rooms . And also our sir isn't that good enough to make us understand the concepts

Best professor

1. Allow us to give feedback at the end each semester and take proper and quick action regarding our concerns.
2. Teaching of every professor should be assessed at the end of each semester and he/ she must be treated accordingly.
3. Principal sir must visit every department once a month and check the facilities like labs, classroom furniture etc.
4. Lab assistants have no purpose at all this job should not exist.
5. Please renovate our zoology lab.

Well

From my experience the teachers should focus their focus on the students and not maximumly on syllabus and i also felt the shortage of various practical equipments and even bare minimum wasn't present. In this semester i also faced the problem of class timings and time table issues that needs to be fixed.

Also the sports teachers won't let us play after 3PM and refused to give us equipments. Lastly i would say that the teachers mainly focus on attendance, assignments, syllabus. This is what they care for and dont give a damn about students.

Please send us feedback at the end of each semester and take a proper action regarding our response. And Do inspection to every class to check the teacher is teaching the pertinent topics from syllabus.

One more and important request is that that our Labs are not well maintained and the instruments and other items used for our practicals are not up to date. I as a student request your good self to renovate our Labs so that we can do our practicals accordingly.

Other request is that principal sir should visit every department in a while especially those departments having Labs to check the lab items.

As a college student, I believe that complaining about teachers often comes across as immature. We should be mature enough to work on our weaknesses.

However, there is one aspect I would appreciate if teachers could focus on—actively involving students in activities such as presentations, debates, and discussions. These activities not

only foster a deeper understanding of the subject but also help in developing critical thinking and communication skills, which are essential for personal and professional growth.

Not all the teachers but some teachers teach like they are there to deliver without showing interest in the understanding of the student.. They just deliver the topic then the student understands it or not it's his or her problem.. And the teacher should deliver the topic in a simple language so that the students can understand it but they force the student to learn the accent and understand the topic in teachers language

Teaching experience is satisfactory of all concerned departments,but students must be engaged in critical thinking and problem solving also in creating new ideas such as in science and mathematics.

Infrastructure improve. Advance level of teaching like UPSC.Proper guidance

1. **Active Learning Strategies:** Encourage methods like group discussions, case studies, and hands-on activities. These approaches can help students engage more deeply with the material.
2. **Personalized Learning:** Implement differentiated instruction to cater to diverse learning styles and paces. This can involve tailoring assignments and assessments to meet individual student needs.
3. **Regular Assessments and Feedback:** Use formative assessments to monitor student progress and provide timely feedback. This helps students understand their strengths and areas for improvement.
4. **Professional Development for Educators:** Offer ongoing training for teachers to keep them updated on new teaching methodologies and technologies. This can enhance their effectiveness in the classroom.
5. **Integrate Technology:** Utilize educational technology tools to enhance learning experiences. Online resources, interactive simulations, and educational apps can make learning more engaging.
6. **Encourage Student Participation:** Foster an inclusive classroom environment where students feel comfortable sharing their ideas and asking questions. This promotes a sense of belonging and encourages active participation.
7. **Build a Supportive Community:** Create a culture of collaboration among students and faculty. This can include mentoring programs, study groups, and open forums for discussion.
8. **Focus on Real-World Applications:** Connect classroom learning to real-world scenarios. This can help students see the relevance of their education and motivate them to engage more fully.

By implementing these strategies, institutions can create a more dynamic and effective teaching and learning process that benefits both students and educators.

Teachers are overall very very nice. They teach so well. Infact, it was really unexpected to get such a great faculty during masters in a degree college. Only laboratory needs to be improved. We want a well-established laboratory.

Laboratory needs improvement. Otherwise we are blessed.

Improvement should be regarding timetable only

Integrate online resources and in-person activities, creating a hybrid approach to reach diverse learning styles.

Educational tours

There's no suggestion because all teachers are overall very good in learning experience

Outdoor activities Educational tours

Overall satisfactory

time of students should be in consideration-- As there is irrevelent time for some subjctcs-

No

To improve the overall teaching-learning experience, a few key observations and suggestions could be considered:

1. Interactive and Engaging Teaching Methods: Incorporate more interactive teaching strategies such as group discussions, case studies, problem-solving sessions, and hands-on projects. These methods encourage students to engage actively with the material and with each other, deepening their understanding.
2. Use of Technology: Integrate modern educational technologies like virtual labs, online quizzes, and multimedia resources to enhance learning. Digital tools can provide dynamic visuals, simulations, and personalized feedback, making learning more adaptable to individual needs.
3. Continuous Professional Development for Teachers: Regular workshops, training, and seminars for faculty on modern pedagogical methods, classroom management, and digital tools will help them stay updated and improve their teaching skills.
4. Clear and Structured Feedback System: Establish a reliable system for students to give feedback on teaching and course materials. This feedback should

Teachers should give students the proper insight about the scope of academics and should encourage the students to persue higher studies.

Chemistry department is really amazing , the faculty works hard towards us ,the deserving and appreciable , only the infrastructure needs to be developed !

In my opinion it shoud be the responsibility of Professor to make topics crystal clear to the students just like they do in Coaching centres. Always in a class especially in advanced science subjects Biochemistry, Biotechnology the Teacher should first prepare the Topic from Zero level to make an average student understandable. The most worst thing in BSC college is that Teachers dont work on students and doesnt have interest to teach like the Tecahers who teach in other prestigious institutions.

The Equipments used for doing practicals are not present.  
There should be student exchange programs, Debating, and a guidance program for various competitive exams especially Civil services.

"I'm hopeful that these insights will help enhance our learning experience moving forward".

Lcd project should be get repair

Improve internship mentorship to create platforms for students. Mentoring students for international universities. More scientific tools required for both students and teachers.

Sheeraz sir is not teaching well please change the sir for our better future.

Improvement regarding time table and the labs of science block especially the biotechnology labs.

How can we give suggestions to improve teaching experience when we have sach qualified teachers with us i think college teacher's are masterclass have deep experience in teaching and understanding things they also encourage students and support students at every point the best example is Dr Yaseen Sir brilliant teacher have never seen sach type of talent and art of teaching is magical also Dr bilal sir seed technology department also mind blowing character overall the teachers are very good and skillful but some teachers use different language while teaching means they translate things in English and urdu more frequently from my point of view I think every student understands the English as well but some students are weak at English language they don't understand properly so i think from my point of view teachers should prefer mother tongue kashmiri language instead of showing English language we all understand English no doubt but the way we will understand kashmiri language I don't think we will understand things in any other language.

Thanks

Incorporate more student-centric methods like group discussions, case studies, role-plays, and hands-on projects to make learning more interactive and engaging.

Encourage the use of digital tools like multimedia presentations, educational apps, and online learning platforms to cater to different learning styles and enhance engagement.

Teachers could provide more timely and specific feedback on assignments and exams, helpin students understand their mistakes and learn from them.

Increase opportunities for internships, field visits, and industry collaborations to help students

apply theoretical knowledge in real-world contexts.

Foster more open lines of communication between teachers and students, encouraging feedback on teaching methods and course content.

Offer workshops or courses focusing on soft skills like communication, teamwork, and leadership, as well as practical career development tools such as resume building and interview preparation.

Encourage teaching that focuses on understanding the "why" behind mathematical concepts, not just the "how." For example, explaining the logic behind formulas and theorems can help students build a stronger foundation. (It is rear)

Incorporate more examples that show how mathematics is used in real life, such as in engineering, economics, computer science, or data analysis. This can make math more relevant and engaging for students.

Implement flipped classrooms or collaborative problem-solving sessions where students can work together in groups to solve real-life mathematical problems. This promotes active learning and peer learning.

Show students how mathematics is applied across various fields (e.g., finance, biology, physics, engineering, social sciences) to highlight its versatility and real-world importance.

Invite guest speakers or organize workshops with professionals who use math in their careers, helping students understand its practical value.

**Math Outreach Programs:** Organize math awareness programs and workshops for local schools and communities, inspiring younger generations in Kashmir to appreciate and pursue mathematics.

**Math Clubs and Societies:** Create or strengthen math clubs or mathematics societies within the university to foster a community of learners who share a passion for mathematics.

Introduce examples and applications of mathematics that are relevant to the region, such as using statistics to study agriculture trends, econometrics for local industry analysis, or geometry for architecture and urban planning in Kashmir.

Allhumdulllah everything is well.

Teaching staff is almost good but classrooms infrastructure is bad like no proper lightening, sometimes problem of electricity etc so take care of these things...

Thanks.

Excellent 👍

Apart from the classes, institution should be fair with every student to make sure that everyone is getting a fair chance in college activities. As far as i have seen this institution only provides the opportunity on the biased basis everyone should get a chance in College programs apart from classes to make the instruction more bright.

To some extent teacher student communication should be promoted.

First of all teachers should use smart. Boards for teaching and where ever there is necessary they should show us practically

By this we can keep the information for a long period of time.

And they should take class tests and tell us about the paper pattern so that we may not suffer

in exams

Thankyou...

The teachers should illustrate concepts through applications and practicals. And also there should be development of Critical Thinking. Teachers while delivering lecture, should ask Critical Thinking questions to Students because it enhances the ability and skills.

College management should focus on the medical department of the college as there is shortage of tools in laboratory section that reduces our motivation to do our practicals there.

Ask students to share information about each others backgrounds and academic interest

Some teachers teach beyond syllabus . It must be reduced

Everything is perfect!!

Alwaysz Have A New Learning That is actually part of life to seek something from mentor

The time table is messed up the teachers arrive late in class too much vacant time till my last class . lastly I haven't used my original roll no as i could get in serious trouble if they got to know

As some of our teachers use chat gpt wholly for teaching students with taking authentic source like books ...so firstly they should prepare themselves and then teach students.....

There should not be any favoritism,

Submit

Good!!

Our teacher is very good he is teaching us with very confidently

It's very good

Complete syllabus for our upcoming exams .... Becoz there is already datesheet released by kashmir University

All is well

No suggestions

Everything is good in our institution. Our institution didn't need any improvement. We are highly satisfied with our institution. 👍 👍

To a great extent

Agree

Everything is goos

Taking BBA into consideration:

Practical approach is missing.

Activities missing

Proper schedule missing.

Dynamic ecosystem missing.

Online internships/practical implementations etc. should be enforced from day 1!

It is nice

Excellent

Overall are all teacher are best in teaching but there are some teachers who lack their art of teach while teaching. Teacher particularly Major (Economics) (1st sem) we're facing alot of issue with him.Somewhat Sir is trying his best but can't successful to understand the topic.

Overall all the teaching faculty is Amazing with a good hand on art of teach.

I request you to take step on this issue or the best way can do to replace sir. I hope this can help us in near further studies.

Thank you.

Class : 1st sem

Subject : Economic as Major

I am with this openion we should annihilate co-education system in our college as soon as possible. Its outcome will solve much more what u mentioned above for enhancing such things.

"I would appreciate more interactive learning opportunities, such as practical workshops, guest lectures from industry experts, and enhanced usage of ICT tools during lectures. Additionally, more support and guidance in terms of internships and career counseling would be beneficial for preparing students for the job market. Regular feedback sessions with students to address their learning needs would also help improve the teaching-learning experience."

Teachers must not be intolerant in terms of academic concerns, try to follow all the rules in almost every concern(not just academic) and try to be as helpful as possible.

# GOVERNMENT DEGREE COLLEGE ANANTNAG. "Student Satisfaction Survey"

**Student Satisfaction Survey regarding Teaching – Learning and Evaluation, will help to upgrade the quality in higher education. A student will have to respond to all the questions given in the following format with her/his sincere effort and thought. Her/his identity will not be revealed.**

Email \*

aadilbashir369@gmail.com

CLASS \*

- 1ST SEMESTER
- 2ND SEMESTER
- 3RD SEMESTER
- 4TH SEMESTER
- 5TH SEMESTER
- 6TH SEMESTER
- PG Chemistry 1st Semester
- PG Commerce 1st Semester
- PG Chemistry 3rd Semester
- PG Commerce 3rd Semester
- Other: .....

CLASS ROLL NUMBER \*

11

GENDER \*

FEMALE

MALE

TRANSGENDER

What Subject/s are you currently pursuing? \*

- Arabic
- Botany
- Biochemistry
- Biotechnology
- Chemistry
- Computer Applications
- Commerce
- English
- Economics
- Education
- Electronics
- Environmental Studies
- Food Technology
- Geology
- Geography
- History
- Hindi
- Islamic studies
- Information Technology
- Kashmiri
- Music
- Mass Communication
- Physics
- Psychology

- Political Science
- Persian
- Sociology
- Statistics
- Seed Technology
- Urdu
- Water Management
- Zoology
- Other: Mathematics

#### INSTRUCTIONS

THE SURVEY PERTAINS TO ONGOING AND PREVIOUS CLASSES/SEMESTERS. FOR EXAMPLE, THE STUDENTS OF 5TH SEMESTER CAN FILL IN THE RESPONSES KEEPING IN VIEW THE OVERALL PERFORMANCE OF TEACHERS UP TO FOUR SEMESTERS.

1. How much of the syllabus was covered in the class? \*

- 85% TO 100%
- 70% TO 84%
- 55% TO 69%
- 30% TO 54%
- BELOW 30%

2. How well did the teachers prepare for the classes? \*

- Thoroughly
- Satisfactorily
- Poorly
- Indifferently
- Won't teach at all

3. How well were the teachers able to communicate? \*

- Always effective
- Sometimes effective
- Just satisfactorily
- Generally ineffective
- Very poor communication

4. The teacher's approach to teaching can best be described as \*

- Excellent
- Very good
- Good
- Fair
- Poor

5. Fairness of the internal evaluation process by the teachers. \*

- Always fair
- Usually fair
- Sometimes unfair
- Usually unfair
- Unfair

6. Was your performance in assignments discussed with you? \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

7. The institute takes active interest in promoting internship, student exchange, field visit opportunities for students. \*

- Regularly
- Often
- Sometimes
- Rarely
- Never

8. The teaching and mentoring process in your institution facilitates you in cognitive, social and emotional growth. \*

- Significantly
- Very well
- Moderately
- Marginally
- Not at all

9. The institution provides multiple opportunities to learn and grow. \*

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

10. Teachers inform you about your expected competencies, course outcomes and programme outcomes. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

11. Your mentor does a necessary follow-up with an assigned task to you. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- I don't have a mentor

12. The teachers illustrate the concepts through examples and applications. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

13. The teachers identify your strengths and encourage you with providing right level of challenges. \*

- Fully
- Reasonably
- Partially
- Slightly
- Unable to

14. Teachers are able to identify your weaknesses and help you to overcome them. \*

- Every time
- Usually
- Occasionally/Sometimes
- Rarely
- Never

15. The institution makes effort to engage students in the monitoring, review and continuous quality improvement of the teaching learning process. \*

- Significantly
- Very well
- Moderately
- Marginally
- Not at all

16. The institute/ teachers use student centric methods, such as experiential learning, participative learning and problem solving methodologies for enhancing learning experiences. \*

- To a great extent
- Moderate
- Some what
- Very little
- Not at all

17. Teachers encourage you to participate in extracurricular activities. \*

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

18. Efforts are made by the institute/ teachers to inculcate soft skills, life skills and employability skills to make you ready for the world of work. \*

- To a great extent
- Moderate
- Some what
- Very little
- Not at all

19. What percentage of teachers use ICT tools such as LCD projector, Multimedia, etc. while teaching. \*

- Above 90%
- 70 – 89%
- 50 – 69%
- 30 – 49%
- Below 29%

20. The overall quality of teaching-learning process in your institute is very good. \*

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

21. Give observations/ suggestions to improve the overall teaching – learning experience in your institution.

Always better
