

ERP (Enterprise Resource Planning) Document

The Department of Commerce and BBA is fully equipped to manage the Enterprise Resource Planning (ERP) in the college campus. Commerce and management are closely linked with the progress and development of the economy in general and society in particular. Commerce does not remain an activity to the traditional system of buying & selling of goods and services but spread its wings to legal, social, political, cultural, economic and technological system and is able to drag the files to invest in Indian MNC's. The department creates a stimulating environment for the academic growth of its students and provides them with thorough understanding of a range of subjects such as accountancy, taxation, business organization, corporate law, financial management, economic theory and business communication.

Importance of ERP

ERP education helps support the increasing needs of business houses. It has been developed to provide aids to the growing manpower needs in thousands of business enterprises. Commerce education equips students with specialized skills that come useful in tackling problems in different functional areas of commerce, industry and trade. The skilled manpower supply is indispensable for the growth of a business. Commerce education has a crucial role in today's dynamic business environment. The rapidly changing trends privatization, globalization and implementation of technology has made tough for organizations to survive the competition in the business world. Consequently, the demand for Commerce education has increased many folds. Business executives need to be trained to update and adapt their skills quickly as per the sudden changes in the external environment.

Vision

To emerge as a Centre of excellent learning charged and textured to churn out professionals of truly highest caliber embodying a synergistically symbolic blend of technical virtuosity and moral altruism, thus acknowledgment as the kingpin of modern system of professional academics.

Mission

To develop competent professionals/workforce by endowing them with the sublime properties of self-reliance, entrepreneurial skills and competitive sledge through knowledge and activity based learning process. To imbibe in them a passion for work and the yearning for perfection.

Goal

To empower, inspire and guide the learners to be motivated, innovative and proactive leaders and employers in the field of entrepreneurship and thereby contribute to the development and sustenance of the regional economy.

Infrastructure for execution of ERP

To achieve the goals of ERP, The department of commerce is housed in a newly built building thus providing best infrastructural facilities for teaching. The department has one well established lab and one spacious classroom for meeting the needs of UG students. In addition to that various classrooms blocks spread across the campus are utilized for the teaching learning process.
