Report on One-Day Tour to Pahalgam

Date: 22 October 2026
Organized by: Department of Electronics, Government Degree College, Anantnag

The Department of Electronics, Government Degree College, Anantnag, organized a one-day educational tour to Pahalgam on 22 October 2026 for students. The main objective of the tour was to provide students with an opportunity to learn beyond the classroom, explore the natural beauty of Pahalgam, and participate in activities that promote teamwork, environmental awareness, and overall personality development.

The tour included a visit to the scenic locations of Pahalgam, where students enjoyed the beautiful landscapes, the Lidder River surroundings, and the pleasant natural environment. The key activities included sightseeing, nature observation, interaction among students and faculty members, group activities, and discussions on the importance of environmental conservation and responsible tourism. Students also enjoyed spending time together, sharing experiences, and capturing memories of the visit.

The tour provided a refreshing break from the regular academic routine and helped students develop a better appreciation of nature. It also encouraged friendship, cooperation, discipline, and a sense of responsibility towards the environment.

This one-day tour was an enjoyable and enriching experience for the students as well as the accompanying faculty members. Such educational activities play an important role in the holistic development of students by combining learning with practical experiences outside the classroom.
